INSTALLATION INSTRUCTIONS

! Electrical products can cause death, injury, or damage to property. Maintenance and installation should only be carried out by a professional electrician.

- Ensure main supply is switched off.
- Remove the metal screw from the inside with the socket and connection wires.
- Insert masonry plugs (1) into mounting surface.
- Fit mounting bracket (2) onto mounting surface with self-tapping screws (3).
- Connect main supply wires to terminal block (4) making sure all connections are tight.
- Unscrew carefully the three small screws on the lights body (5).
- Insert the metal screw up to the height of the smaller ones and screwing them. Lights body moves slowly towards the mounting surface until it touches (6).
- Fit GU10 bulb firmly into lampholder (7).
- Reconnect power.

WARNING

- Make sure that the products is installed properly before connecting to electricity.
- Do not cover the fitting.
- Not for outdoor use or in wet conditions.
