INSTALLATION INSTRUCTIONS

⚠ Electrical products can cause death, injury, or damage to property. Maintenance and installation should only be carried out by a professional electrician.

- Ensure main supply is switched off.
- Cut Out Hole 64mm (1) into the mounting surface.
- Twist the GU10 bulb to lock it onto the lampholder (2).
- Install and secure the cover (3).
- Move the springs to an upright position (4).
- Insert the spot into the inside of the hole (5) and return the springs to a vertical position.
- Reconnect power.

WARNING

- Make sure that the products is installed properly before connecting to electricity.
- Do not cover the fitting.
- Not for outdoor use or in wet conditions.
